Our Community Training Service.

Community Training Solutions—Fill in the form for a quote:

Manor St. John Youth Service has significant experience delivering training to young people, families and community groups. As part of our continued development MSJ are now offering the following learning, training, development and facilitation programmes which are designed to be suitable for all community organisations.

IT Literacy Training Programme—programmes in computer training specifically put together with the needs of voluntary organisations in mind. Participants can learn in a fully equipped technology centre in the MSJ or in their own venue with our portable training equipment. MSJ offers FETAC certification if required.

Outdoor Pursuits & Team Challenges Events— A range of half and one-day team building events using the great outdoor. MSJ's fully trained staff can design and lead programmes for your staff or client groups. No skills needed—only a sense of humour and a willingness to get wet & muddy

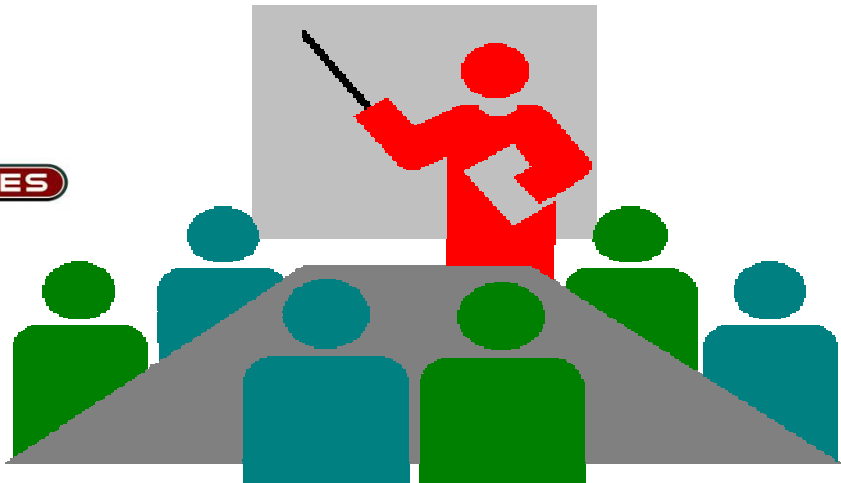

Group facilitation for the Voluntary Sector— MSJ's experienced facilitators and associates can design a range of facilitated programmes to support groups on a range of issues including: governance, team building and leadership, strategic planning, HR, legal and financial matters —these programmes are individually designed and tailored for people involved in the management and development of community and voluntary groups.
